A Brief History

Redtooth Poker, the UK's No. 1 Pub Poker League boasts around 1,000 venues around England, Scotland and Wales. Since it's inception in February 2007, the league has continually improved standards of both equipment and support services. Redtooth Poker is the preferred poker supplier to most major breweries and pub chains.

A cash prize fund of £80,000 was introduced in 2009 and with the increasing popularity of poker, the Redtooth Poker League has experienced remarkable growth, this years prize fund is a massive £270,000.

In 2012, Redtooth Poker revolutionised pub poker in the UK by introducing VEGAS 100, a concept taking the UK's top 100 pub poker players, who qualify via regional and national finals, to the poker capital of the world Las Vegas to take part in our VEGAS 100 experience.

Ever since the start of the VEGAS 100, the brand has gone from strength to strength and has become a recognised event both across the UK and in Las Vegas itself. It has firmly become the target for every pub poker player to aim for.

Redtooth Poker has been a runaway success. We have had over 200 players register to play and over 35 players turn up to play regularly on a weekly basis. For £20 a week it's a great business builder!

How It Works

The league journey runs for 13 weeks continuously throughout the year with pubs being able to join at any time during the season. **The league costs £20 + VAT per week.**

We provide you with all the equipment you will need to run your poker night including 2 x tables, 2 x poker chip cases and a starter box including full details on how to run your league.

Four players from each venue qualify for quarterly regional finals. Each pub winner is presented with a glass trophy and certificate at regional finals.

There are 72 regional finals nationwide each year, where your customers compete against players from other local participating pubs to play for the title of Regional Champion.

The winner of the regional final will qualify for the VEGAS 100 trip with the other top players qualifying for our UK National Finals where they will have a further chance to qualify for the VEGAS 100 trip taking place at The Orleans Hotel and Casino.

Since the introduction of the Gambling Act 2005, which came into effect in 2007 players in pubs have been able to play for small stakes or prizes. Full details are provided in the starter box.

Reasons To Join

The main reason for joining the Redtooth Poker league is to attract customers to your pub!

The league is designed to bring customers into pubs for extended sessions thereby increasing the wet trade on an otherwise quiet night. The evening is planned with breaks and ways to keep players involved all evening.

A successful poker night also has a knock on effect on other nights in your pub as players may choose to take advantage of the various offers around your venue or targeted at them.

We have had some great feedback and testimonials from licensees across the country.

Dave's Story

It's hard to put into words, the massive impact that Redtooth Poker has had on our pub. Since joining the league back in 2012, no fewer than SIX of our regular players have been fortunate enough to win a place on the VEGAS 100 trip - meaning I've had six chances in the draw for a FREE trip as the licensee.

We've established a regular clientele of core players who also frequent the pub on non poker days. At the last regional final, the combined strength of our players saw us lifting the team trophy for the South West region.

I'd like to sincerely thank Redtooth for their professionalism and hard work in running the league, long may it continue!

Benefits

Same Price Greater Value - In the 11 years of Redtooth Poker we have **never** increased the cost of the league and we keep improving benefits to the licensees and prizes for the players.

Free Subscription - The UK Pub Poker Champion™ pub will receive a years free subscription. This is worth over £1,200 to the licensee.

Landlord VEGAS Prize Draw - Redtooth will be giving away two prize draw tickets per year to join the VEGAS 100 guest list. This is exclusive to pub licensees who have had one or more of their players qualify for the VEGAS 100. This is drawn a week after the UK National Finals so the venues of the ten players who qualify from those events will also be included in the draw. This prize is transferable and, if the licensee wishes, can be used as a way to attract new players/customers into their venue. How many licensees can give away a trip to Las Vegas in their pub?

Landlord Equipment Discount - The pubs will be provided with our **FREECARDS4LIFE** offer meaning that the pub will never need to purchase a deck of cards again. These are collected at the regional finals and are worth over £45 per year.

All other Redtooth Poker equipment if ordered by the licensee/manager of the pub will have the option of **Buy One Get One Free** offering more choice and value to the venue.

The equipment provided is sufficient for 16-18 players. It is advisable to promote the poker events beforehand and ask interested players to complete registration forms as soon as possible. A poster to help generate interest is available before signing up - call us on 01246 813713 and request one.

If more than 16 players register, you may wish to purchase additional equipment from Redtooth at special rates. Additional paperwork such as player registration forms etc. can be sent free of charge and ordered via our website or on the phone.

How The Game Works

Overview of the Game

Texas Hold 'Em uses a disc called a dealer button to indicate where the cards are to be dealt. Prior to the deal, the two players to the left of the button place live bets called the small and big blinds. It is called a blind because players must pay this amount before seeing their cards. It's called live because it counts as part of any further bets in the first betting round. The play begins with two cards dealt face-down to each player.

Action starts with a betting round beginning with the player to the left of the blind bets and continuing clockwise around the table. Players may bet, check, raise or fold in turn. The big blind has the privilege of last action and may check or raise the bet.

Three community cards called "The Flop" are then dealt up in the centre of the table and another betting round takes place beginning with the player to the left of the dealer button. Another card is dealt face up (called "The Turn") followed by a round of betting.

The fifth and last card called "The River" is dealt face up and a final round of betting takes place. Players remaining in the hand will then show their cards and the winning poker hand will be awarded the pot. Any combination of pocket cards and community cards may be used to make the best five-card poker hand.

The game ends when one player has all the chips!

How the Betting Works

Any bet needs to be a minimum of the current big blind. There are basically five options for betting throughout the game:

1. Check

If there has been no betting before you then you are able to check, this means no bet but you remain in the hand. This isn't applicable in the first round before the flop due to the posted blinds.

2. Fold

If you don't want to continue playing in this hand then you can fold your cards, you lose any chips you've invested into the pot up to this stage. Pass your cards to the dealer as they are no longer in play.

3. Call

If there has been a bet before you and you want to match it but not raise it, you can call. Your bet would be the same as the bet before you. For example the current bet is at 800, you would need to put in 800 to call.

4. Raise

If you wish to raise the betting you need to announce 'raise'. The minimum raise is the difference between the previous two bets.

5. All In

Players are also able to go 'All In' which means that they are betting all their chips on that hand.

Hole Cards (Player)

The Flop

Turn

River

The following is a list of poker hand rankings, starting with the strongest:

Royal Flush

10, J, Q, K, A of the same suit, this is the strongest hand in all of poker.

Straight Flush

Any series of 5 consecutive cards of the same suit.

Four of a Kind

Any hand with four cards of the same rank. (The fifth card does not matter.)

Full House

A hand that consists of three cards of the same rank and two other cards of the same rank. In other words, a full house is a three-of-a-kind with a pair.

Flush

When the hand has five cards of the same suit. It doesn't matter the rank of the cards, so long as they are all the same suit—like Spades or Diamonds. If two players have a flush, then the player with the highest card of that suit wins the hand. If the highest cards are equal, move to the second, then to the third, etc.

Straight

Five sequential cards of any suit. If two players have straights, the straight with the highest card wins.

Three of a Kind

Three cards of equal rank.

Two Pairs

Two pairs of cards or equal rank.

Pair

Two cards of equal rank.

High Card

A hand that doesn't form any of these combinations. If comparing two of these hands, whichever player has the highest card is the winner.

In hands where the combinations are the same (like if two players have 2 Kings), then the tie is broken with the KICKER (next highest card). Whichever player has the higher kicker is the winner of the hand. If two players have the exact same five cards, the pot is SPLIT and the players equally divide the pot.

Making The Most Of The Night

We want your poker night to be a huge success and build business in your venue - here's some hints and tips to get you started - don't forget you can call us anytime on 01246 813713 for advice and ideas.

Visibility - We strongly recommend that you run your poker night in a highly visible area in your venue. This ensures maximum exposure to all customers that come through your doors, therefore getting you more players!

Table Service - This is the most important factor in creating a successful poker night. Most poker players don't like to leave the table while playing but will often order drinks if table service is provided. We found that sales increased by nearly 400% when table service was provided - so make sure this is something you don't miss out on.

Advertising - We provide all our venues with A2 sized full colour posters that should be put up around the venue for your customers to see. These posters have a space at the bottom for you to write in the night you play.

There are now 3 types of posters (featured throughout this brochure) that offer different messages for you to promote the league. These are also available as downloads and images from our website for you to use too.

Advertising doesn't just stop with posters though, **word of mouth** is an excellent way to acquire new poker players. Get the word out there by talking to customers about your poker night, you may be surprised by how many people can play poker and fancy a good game!

We advertise your league on our website at **www.redtoothpoker.com** informing visitors what night you play, address and more.

Self Management - We offer an option for you to manage your players scores and league through our website. As well as being quicker and more up to date (no post to worry about) it gives you some real benefits too - you can send SMS messages and emails to your registered players each week to keep them up to date with offers and what's happening in your venue.

Social Media - This is a huge way to increase your trade and it's free! - Why not get your players to share and advertise your weekly league games on facebook, twitter and instagram. Make sure your venue's social media pages are up to date with lots of activity and correct contact details - this makes a huge difference in attracting new customers.

Player Incentives - Perhaps you could offer a free drink to any player who brings a friend along and registers for your Poker night. This is something you could offer via text message to your players.

Small Stakes - By law your players can play for small stakes in your venue (see 'The Legislation' for full details) and this can be another good way to keep your players interested week in and week out, if they can't make it to the regional finals they can still win a cash prize on the evening.

Additional Prizes - These can be offered to your weekly or season winner. Venues that offer a food menu could give meal vouchers away as a prize for winning a league game or winning the season. This would ensure a further visit on another night of the week, potentially bringing family or friends along too.
